Structural Engineer in Illinois

EXPERIENCE

Since joining the firm in May 2001, Mr. Schuette has served essential roles on a wide variety of projects. With a passion for technology, Mr. Schuette has become proficient with the latest computer software for analyzing, designing, and drafting structures. His code-centric approach to design ensures clients that their projects are designed using the most current methods, no matter the structural system chosen.

Mr. Schuette uses his architectural background to aid in his communication with clients and to understand the goals his clients are looking to achieve.
